Dropout

The Bags

What's the matter with you, you've been down all day?
What happened to you to make you feel that way?
Baby, ain't that a shame when they call you those names
Dropping out from school, guess, it wasn't so cool
Everyone, everyone needs some space to breathe
All the time we have been blind, so blind, yeah
We just couldn't see it, yeah, you're too old to cry, too young to die
What happens in the in between? Don't you think it's strange?
Things just change, it's just a burnt out town a burnt out scene
You've been a dropout ever since you've been seventeen
Lonely child when will you see? You need to be free
Often times people they find, they're not blind
Yeah, they just don't see lonely child listen to me
It's just a burnt out town, it's just a one horse scene
Gotta get away, gotta get away, you got to
Hanging out in the parking lot at dairy queen
You've been a dropout ever since you've been seventeen
Gotta get away, gotta get away, you got to
