

# Dropout

## The Bags

What's the matter with you, you've been down all day?  
What happened to you to make you feel that way?  
Baby, ain't that a shame when they call you those names  
Dropping out from school, guess, it wasn't so cool  
Everyone, everyone needs some space to breathe  
All the time we have been blind, so blind, yeah  
We just couldn't see it, yeah, you're too old to cry, too young to die  
What happens in the in between? Don't you think it's strange?  
Things just change, it's just a burnt out town a burnt out scene  
You've been a dropout ever since you've been seventeen  
Lonely child when will you see? You need to be free  
Often times people they find, they're not blind  
Yeah, they just don't see lonely child listen to me  
It's just a burnt out town, it's just a one horse scene  
Gotta get away, gotta get away, you got to  
Hanging out in the parking lot at dairy queen  
You've been a dropout ever since you've been seventeen  
Gotta get away, gotta get away, you got to
