

# Blindfold

## Millionaire

Making friends with the moon, ooh one can't start to soon,  
cause if you don't, then you will find yourself  
Crawling in corners, rolling in circles, forgetting about the soup When you loose all your skin, cause you let it all  
bang  
and you just tried 15 times to get a rip  
Dispose your good thoughts, making the wrong ones better Oh I have to make a choice now  
Oh i can not flip a coin You're living up to gameshow, cause it just feels so good  
You're collapsing in a crowd and you ask yourself  
Sispose your good thoughts, making the wrong ones better Making friends with the moon, ooh one can't start to  
soon,  
cause if you don't, then you will find yourself  
Crawling in corners, rolling in cirles, forgetting about the soup Oh I have to make a choice now  
Oh i wish i knew a wiseman  
Mmm we all go blind  
Mmm live life so blind
