

Come and Get It

Eli "Paperboy" Reed

If you want the love of a man,
 Come and get it (baby)
If you want the love of a man,
Come and get itIf you want the love of a real good man
 Come and shout me
I make you understand
 Don't you just look
 Come and take it
 Cause what i've got
You know you can't fake it[chorus]
 If you want the love of a man,
 Come and get it
 If you want the love of a man,
 You got to get with it
 If you want the love of a man,
 Come and get it
 If you want the love of a man,
 You got to get with itListen
Remember girl, i've been around the block
 My legs are shied, but I won't stop
 It's your turn to make a choice
 Don't just sit there girl
Stand up to raise your voice[chorus]
 If you want the love of a man,
 Come and get it
 If you want the love of a man,
 You got to get with it
 If you want the love of a man,
 Come and get it
 If you want the love of a man,
 Come and get it
You want to get with itAll my love came tumbling downQuite playing games
 Beat around the bush
 All that love really needs is
 Just a little pitty push[chorus]
 If you want the love of a man,
 Come and get it
 If you want the love of a man,
 You got to get with it
 If you want the love of a man,

Come and get it
If you want the love of a man,
You want to get with it
