Psycho Disco

Good Throb

I'm gone
I got the blinkers on my eyes
It's strong
Like the night will testify
It's so damn good
Go free
And put your pale head on my chest
You'll feel
That it's my heartbeat pounding you deaf
It's so damn good
To go mad with you
That's what we like
We like it when the darkness tells us lies
That's what we are
Till the light creeps through the cracks of night
It's so damn good
To go mad with you
That's night
It's so damn good
To go mad with you
