

# Wings of an Eagle

Russell Morris

Well I'm looking out at an overcast sky in the morning  
I can hear the warning as it calls to you  
As the birds migrate and the wind is raised  
I see the eagle soaring  
Although I'm just a pawn in nature's game like you  
Wah hoo wah hoo, wah hoo ...

[Chorus]

On the wings of an eagle I find myself lifted through the skies  
Lifted up above the world to see  
On the wings of an eagle I find myself lifted through the skies  
Lifted up above the world to see  
Can you see me? Can you see me?

As the days roll on and the nights get long  
The changing of the seasons  
The falling autumn leaves they bring me down  
They bring me down, they bring me down

[Instrumental]

Do you lose your way in the middle of the day  
Do you see your brother crawling?  
And all the while he's calling out for help from you  
Wah hoo wah hoo, wah hoo ...

On the wings of an eagle I find myself lifted through the skies  
Lifted up above the world to see  
On the wings of an eagle I find myself lifted through the skies  
Lifted up above the world to see

Can you see me? Can you see me?  
Can you see me? Can you see me?

Can you see me? Can you see me?  
Can you see me? Can you see me?
