Filling Silence

The Butterfly Effect

Safe... Only for youOn the edge of the darkWhere no one can find you
Breathe... extinguish the spark
Are you hiding from something
No self... Reflecting in sceneWhen I feel you lost inside me
darkness blinds me now that I feel you, i've
Now that I feel you, IExit the empty
exist... where nothing was foundwhere no one can find me
i'll go... softly without a soundwill I find you lost inside me
silence i'll be
now that I feel you, I
now that I feel you, I...Drifting inside
Closing my eyes
Till the pain died
given in to you
I've given in to you, I.....feel you now...And I feel you, I...You...I feel you... I...Feel you, I....*This is the bit where Clint sings REALLY high like an angel!*Feel you.....
Now I have gone in to you
All that remains I know....
Is the silence thats filling me now..
Can you hear me..... NOW!Empty Craving???
Filling Silence..
