

Filling Silence

The Butterfly Effect

Safe... Only for you On the edge of the dark Where no one can find you

Breathe... extinguish the spark

Are you hiding from something

No self... Reflecting in scene When I feel you lost inside me

darkness blinds me now that I feel you, i've

Now that I feel you, I Exit the empty

exist... where nothing was found where no one can find me

i'll go... softly without a sound will I find you lost inside me

silence i'll be

now that I feel you, I

now that I feel you, I... Drifting inside

Closing my eyes

Till the pain died

given in to you

I've given in to you, I.....feel you now...And I feel you, I...You...I feel you... I...Feel you, I....*This is the bit

where Clint sings REALLY high like an angel!*Feel you.....

Now I have gone in to you

All that remains I know....

Is the silence that's filling me now..

Can you hear me..... NOW! Empty Craving???

Filling Silence..
