Something Out Of The Blue

Laura Mvula

I opened up my mind
But peace I could not find
Then something out of the blue
Said, "I needed you"
Time swept me away
Merged me into pain
Then something out of the blue
Said, "You need me too"
Oh what joy it bring to me
To know that Heaven's 'round
Oh what gladness in my heart
To know my love's been found
Chains tottered my climb
I was pushed out of time
Then something out of the blue
Said, "You'll see me through"
Then something out of the blue
Said, "You'll see me through"
Now where hope was lost
Love's paid the cost
And something out of the blue
Said, "My love is you"
Something out of the blue
Said, "I needed you"
Something out of the blue
