

You've Got a Hold On Me

[Frank Sinatra](#)

You've got a hold on me
You've got that magic hold on me
When I'm alone now, I wonder
What is this power I'm under? You cast a spell on me
That moment heaven fell on me
You've got a hold on me
What can I do?
But always hold on to you You cast a spell on me
That moment heaven fell on me
You've got a hold on me
What can I do?
But always hold on to you
