

# Lifter

[Alex. Kunnari](#)

Down a road less traveled  
And I see my purpose in front of me  
And it's simple and It's gentle I found  
Down a road less traveled  
And I feel my conscience running deep  
And it's simple but it's mental I found  
And I'm never looking back  
No I'm never looking back  
No I'm never looking back again  
We all fall down  
Time keeps changing  
We all will hit the ground  
Down a road less traveled  
And I see my world beneath my wings  
And it's simple but it's crippled I found  
Down a road less traveled
