Little Darling Pal Of Mine

The Early Mays

In the night, while you lay sleeping dreamin' of, your amber skies
was a poor boy, broken hearted, listen to the winds that sigh

(Chorus)
little darlin' how I love you, how I love you and can tell
in your heart you love another, little darlin' pal o' mine

Many a day with you I bramble, half past hours with you i spent
thought I held your heart forever, now i find its only lent

(Chorus)
little darlin' how I love you, how I love you and can tell
in your heart you love another, little darlin' pal o' mine

There are just three things I wish for that's my casket, shroud, and grave
when I'm gone, don't weep for me, just kiss those lips that you betrayed

(Chorus x2)
little darlin' how I love you, how I love you and can tell
in your heart you love another, little darlin' pal o' mine
