No Regrets

Billie Holiday

No regrets
Although our love affair has gone astray
No regrets
I know I'll always care though you're awaySo now our happy romance ended suddenly
Still in my heart you'll be forever mineNo regrets
Because somebody new looks good to you
No regrets
Sweetheart no matter what you say or doI know our love will linger
When the other love forgets
So I say goodbye with no regretsNo regrets
Because somebody new looks good to you
No regrets
Sweetheart no matter what you say or doI know our love will linger
When the other love forgets
So I say goodbye with no regrets
