

Everyone Breaks the Rules

The Baghdaddios

I was late for work last night 'cause some jerk ran a red light.
He cut me off and I had to stop.
All I could do was curse him out and give him the finger.
You know I nearly lost my job
But why am I telling you? This is nothing new....this stuff happens every single day.

The kids I used to go to school with all have summer beach houses.....
.....mostly 'cause their daddies cheated on their income tax.
My poor old man had to work two jobs for 35 years.
I ain't crying, man, these are the facts.
But why am I telling you? This is nothing new....this stuff happens every single day.

Everyone breaks the rules (3x).....so now: I'm gonna break some too....

Saw some guilty mutha get put back out on the street.....
.....because of some jive technicality.
Free to rape and free to kill and free to steal your livelihood.
Hey, man, it sucks but that's reality.
But why am I telling you? This is nothing new....this stuff happens every single day.

Everyone breaks the rules (3x).....so now: I'm gonna break some too....

A lying politician, a priest wigged out on lust, what do they got in common?
They all betrayed our trust.....
Celebrities who broke the rules, how can they go scott-free?
How come these kind of breaks don't happen for you and me?

(Because) Everyone breaks the rules (3x).....so now: I'm gonna break some too....

Saw the son or daughter of someone famous - struttin' their stuff last night on my T.V.
I guess nepotism can be a fabulous career move.
A door-stop's got more talent but, somehow, they're celebrities.....
If there's an angle, baby, you bet I'll use it.
You won't see me hesitate from the guilt.
I'll do what I have to do - and you can go get screwed.
Life's taught me to kill or get killed.
But why am I telling you? This is nothing new....this stuff happens every single day.

Everyone breaks the rules (3x).....so now: I'm gonna break some too....
Everyone breaks the rules (3x).....so now: I'm gonna break some too....

Everyone breaks the rules (3x).....so now: Iâ€™m gonna break some too....
(mm-Break them rules....ah, breaka-breaka-break them rules....oh yeah.....)

Everyone breaks the rules (8x).....so now: Iâ€™m gonna break some too....
