You Are My Hatred

Closure

How's your halo
Broken and fading
Selfish and hating
I see through you
You're good at lying
Running and hiding
Now you've been caught
I thank you
What's that, solar sound
Play it back, slow it down
Can't erase what's all around
You are my hatred
What's that, crawling out
Back in black
Now the light is shining down
I can't erase
What's all around
You are my hatred
I hope he was worth it
Life long thrill so perfect
And all this, you don't deserve it
I see through you
Hold on, hold on, hold on
You are my hatred
