# Erase Us

## Army of Freshmen

Start if you stop cause my life is just not
A script that you skip when you don't get the plot
'Cause I've said almost everything there's left to say to you
Turncoat, now you and I are enemies
And all the things we used to be
Have faded and they've drifted far awayIt's not working, we might as well face it
Throw in the towel, rewind and erase us tonight
It's not working, we might as well face it
Throw in the towel, rewind and erase us tonightStress took it's toll, in and out of control
More or less, just a mess, SOS, save our soul
'Cause I'd do almost anything to keep this thing alive
Stand down, you just gave up on me
I don't know you but I know who is leaving
And leaving me aloneHold on, 'cause if we let go
Hold on, then we'll never know
Hold on, we almost had it all
We almost had it all[Chorus x1]Hold on, hold on
Now I'm scared to death
Hold on, that there's nothing left
Hold on we almost had it all
We almost had it all[Chorus x1]
