Frontload (Designer Drugs Remix)

Freezepop

(got me feeling incredible)
(got control over me)
(you got me feeling incredible)
(got control over me)

you got me feeling incredible
got control over me
got me feeling insatiable
I just need to be seen
you got me feeling incredible
got control over me
got me feeling insatiable
I just need to be see-een

take me to the city
let me hear the crowds and the screams
all the flashes all that noise
and this is the night well be free
take me to the cosmos
take me to the place on the screen
dreaming of this moment
and this is the night we'll be free

take me to your party
take me through the ice and the streets
take me to your party
and this is the night we'll be free
(2x)

take me to the city
let me hear the crowds and the screams
all the flashes all that noise
and this is the night well be free
take me to the cosmos
take me to the place on the screen
dreaming of this moment
and this is the night we'll be free

(got me feeling incredible)
(got control over me)

(you got me feeling incredible)
(got control over me)
(4x)
