

# Better

## Pasadena

If ya gonna play the game  
You better get used to pain  
There ain't nobody left to blame  
It ain't ever gonna; ever gonna  
Be the same

If you gonna run, then run  
You better forget everyone  
And everything you ever loved  
It ain't ever gonna; ever gonna  
Be the same

Another burnt lung  
Another tank of gasoline  
Another day older  
Another city in between

Another moment in life  
Vanishing quickly  
Moving swiftly away from me

I have wasted so much time here  
I wish that could rewind, dear

You are the bridge between  
Where I am now and  
Where I aim to be

There's no more philosophy  
You know its  
Now or never  
See, I gotta be better  
Be better

I gotta be better-er-er

Another burned bridge  
Another friendship I can't keep

\*\*\*\*\*

\*\*\*\*\*

Some people in life  
Never leave me so quickly  
But to find it  
And change it  
For good

I gotta stay true to me  
For who i am now  
and who i want to be  
well, I will keep on listening  
see it's  
I gotta be better  
I gotta be better-er-er
