

Explore Each Other

Jean B. Gerbier

Explore each other

Somebody's been loving you. You don't even know that.

If you say you love me, I'll show you that, I won't
ever lie. You are my Heaven sent. I trust in tomorrow
will bring, after making love to you. Now that we know
each other. I think

Chorus

It's time to explore each other,
we've known each other for too long.
Love will conquer all.

When I am close to you the world is happy, I begin to leave
just for you alone. I need your loving tonight, to give
you romance, touching and caring. You are my Heaven sent,
I trust in what tomorrow will bring, after making love to you.
I think
