Break What's Broken

Charlie Worsham

Go ahead and lead me on
Tell me you never do this
Take my keys and steal my kiss
Let the lies roll off your lips
You go ahead and lead me onTonight
A little bit of wrong could be alright
And when you're gone,
Hey what's some worst one more goodbye could do
You can't hurt me cause I can't love you
No need to skate around where this is going
You can't break what's brokenI don't wanna be alone
With all these jagged pieces
You can't unwreck the wreck she left
But we could rearrange the mess
And I don't wanna be aloneTonight
A little bit of wrong could be alright
And when you're gone,
Hey what's some worst one more goodbye could do
You can't hurt me cause I can't love you
No need to skate around where this is going
You can't break what's brokenHey what's some worst one more goodbye could do
You can't hurt me cause I can't love you
My heart's so far beyond repair
You don't have to handle me with care
No need to skate around where this is going
You can't break what's broken, broken
You can't break what'sSo go ahead and lead me on
