

Double Tap

Ministry

It's like playing in a video game
High value target needs a bullet in his brain
Tired of the bullshit
Time he feels the pain
Time for retribution
Tired of his game Double Tap Ten fucking years of trying to track this guy around
We always knew Pakistan is where he'd be found
All's we need's the go-ahead and he goes down
Double tap to the head then he gets drowned Double Tap That Bin Laden's gotta go
Code name Geronimo! Double Tap
