

She Never Knew Me

[Don Williams](#)

She packed up her suitcase and walked to the door
She said she wont come like shes done before
I bet shes in Dallas before it gets dark
I know shes thinking shes breaking my heartShe knows I love her so she thinks Ill crawl
But she never knew me, she never knew me
She never knew me at allShe knows I love her, I know I need her
God knows to please her, Ive tried and Ive triedBy now if I know her, shes changed her mind
Shell pull off the highway and have a good cry
And then like a lost child shell want to come home
She thinks Im waiting there by the phoneShell stop in some cafe and give me a call
But she never knew me, she never knew me
She never knew me at all
