

I'm Sorry

Roxette

The first time we met time stood still / You left me breathless / Suddenly speechless / Within the hour we were one / Two total strangers kissing the moonlight / Oh, you know I'm sorry I had to go / I'm really sorry it had to die / I'm really sorry I made you cry / Cry / We fell in love between the nights / Of too many lovers and too many teardrops / And fate won't resist some satin sheets / I was so helpless / Totally ruthless / Oh, you know I'm sorry I had to go / I'm really sorry you're hurt inside / I'm really sorry I made you cry / Cry, cry / Love is lifting you up and draggin' you down / Makes you go round and round and round / Time makes a stop then it's all gone /
Funny how memories keep lingering on.
