

# Good Love

Tlc

Every time I get to see you  
I get this feelin'  
It's so fuzzy inside  
And as soon as I walk away from you  
I'm still tasting your kiss  
Saving it in my mind  
It's not everyday I find  
A guy that makes me smile all the time  
Not the way that you do  
The guys I thought I used to love  
Compared to you they don't match up  
They got nothing on you  
I think I found a good, good, good love  
The kind that worded on you  
The kind that you wanna hold on to  
I think I found a good, good, good love  
We can be lovers and friends too  
And they'll do anything for you  
A good love  
Baby you got somethin' special  
That has me thinkin'  
Of settling down  
You're the one my Mama told me  
Would sooner or later one day  
Finally come around  
I think I found a good, good, good love  
The kind that will put it on you  
The kind that you wanna hold onto  
I think I found a good, good, good love  
We can be lovers and friends too  
And they'll do anything for you  
Good love  
I think I found a good, good, good love  
The kind that will put it on you  
The kind that you wanna hold onto  
I think I found a good, good, good love  
We can be lovers and friends too  
And they'll do anything for you

## Good love

You bring me joy and you bring me much pleasure  
I could never see myself leaving you ever  
Your soft touch is good and it can't get no better  
You have got my mind so caught up  
I'm drunk off of your good love, oh yeah  
The kind that will put it on you  
The kind that you wanna hold onto  
I think I found a good, good, good love  
We can be lovers and friends too  
And they'll do anything for you  
A good love  
I think I found a good, good, good love  
The kind that will put it on you  
The kind that you wanna hold onto  
I think I found a good, good, good love  
We can be lovers and friends too  
And they'll do anything for you  
Good love  
Good, good, good love  
On you  
The kind that you wanna hold onto  
I think I found a good, good, good love  
We can be lovers and friends too  
And they'll do anything for you  
Good love  
I think I found a good, good, good love  
The kind that will put it on you  
The kind that you wanna hold onto  
I think I found a good, good, good love  
We can be lovers and friends too  
And they'll do anything for you  
Good love  
I think I found a good, good, good love  
The kind that will put it on you  
The kind that you wanna hold onto  
I think I found a good, good, good love
