Someone Like You

Safetysuit

If I were strong enough, if I were wrong enough
To be someone like you
Would you have let me come to be with you?
If I had made my own and I had overcome
To be someone like you
Would you have let me come to be with you?
And if I could be with someone like you
Would you, would you be strong enough for me?
And if I could stay with someone like you
Would you, would you be strong enough, girl?
If I had made my way, if I had chose to stay
And be someone like you
Would you have let me come to be with you?
If I had made myself become like someone else
And be someone like you
Would you have let me come to be with you?
And if I could be with someone like you
Would you, would you be strong enough for me?
And if I could stay with someone like you
Would you, would you be strong enough for me?
Can you see me holding you right in my arms?
Right in my
If I, I could be with someone who?s just like you
Would you, would you, would you be strong enough for me?
And if I could be with someone like you
Would you, would you be strong enough for me?
And if I could stay with someone just like you
Would you, would you, would you be strong enough for me?
Would you be strong, strong, girl?
Would you be strong, strong, oh?
