

Father's House

The Tucker Brothers

Sometimes I don't know which way I'm going,
the road ahead seems not too clear to me.
I'm gonna ride all night,
til I see that Holy light,
in that room in my Father's house for me.

There's a room in my Father's house for me.
There's a room in my Father's house for me.
There's a room in His house for me,
a room where I'm gonna be,
a room He prepared for me,
a room....
in my Father's house for me.

The road to hell is paved with good intentions,
But there's trouble round the bend.
It's an easy ride, but no one ever mentions,
what lies waiting in the end.

There's a room in my Father's house for me.
There's a room in my Father's house for me.
There's a room in His house for me,
a room where I'm gonna be,
a room He prepared for me,
a room....
in my Father's house for me.

It's good to know there's someone I can turn to,
Like the man who walked the waves on Gallilee,
He will prepare that place He has promised.
A room in my Father's house for me.

There's a room in my Father's house for me.
There's a room in my Father's house for me.
There's a room in His house for me,
a room where I'm gonna be,
a room He prepared for me,
a room....
in my Father's house for me.
