

# Scream In Blue

## Midnight Oil

Come to me now  
Be careful what you say  
Don't make a sound  
There's noise enough in this Come with me know  
Let night move into day  
Let sheets keep secrets  
That no-one else could know I could kill for this one time and not be caught  
She said to me, this is the one and I know  
Come to me now, this is the final hour
