Never Say Never

Outasight

Hello, it's me again
The thing that wouldn't die
You thought you had me beaten
Now you can't deny
Never on fire
And it's hard time to burn
And they see light up still
And lyin' they take the turn
No, no, no, never, no, never
No, never say never again
Why did you waste your time
On those who don't deserve
No, nothing power sail
Or bet you got enough
When I am lookin' at the
Mule train and bush
I've got two words for you
That can't be misunderstood
No, no, no, never, no, never
No, never say never again
No, no, no, never, no, never
No, never say never again
Hey, you think you never thought
You'd had to face the noise
And nice played back up friend
Was singin' all the voice
And now you're prayin'
You'd got free and you'll not fail
But you'll be goin' to the
Steamin' iron hell
No, no, no, never, no, never
No, never say never again
No, no, no never, no, never
No, never say never again
