

Fix Me

Chuck Wicks

In the night when you call
I'll be waiting by the phone
To hear it all
And I won't leave until you call
Cause baby I don't wanna miss the way you fix me
Speak speak like you never spoke before
Walk with me through an open door
Cause then it all goes away
Eh eh eh
Fall fall with me from the highest ledge
Bring me down from the broken edge
Walk away with my heart
Eh eh eh Take me back in open arms
Take me back to a brand new start
And Fix me
In the night when you call
I'll be waiting by the phone
To hear it all
And I won't leave until you call
baby I don't wanna miss the way you fix me
Ooooooh mhm m m m m m you fix me
Wait wait till the morning comes
and then take me through it all again
cause baby we may want it more
I finally feel I can turn the page
Feel like my worlds about to change
and I want to do it again do it again
In the night when you call
I'll be waiting by the phone
to hear it all again
And I won't leave until you call
Cause baby I don't wanna miss the way you fix me
Mhm m m m m m m m m m m
You fix me
Ohhhhhhh Take me back in your open arms
And Take me back to a brand new start
And Fix me
