

# That Kind of Beautiful

## Emerson Drive

Have you ever been flyin' down a long country road  
With the windows wide open and the sun rushin' in?  
Have you ever sat starin' at the shoreline all night?  
Don't wanna blink your eyes thinkin', man, this is it  
And the last thing you think about is leavin'  
And you can't believe you're seein' what you're seein'  
She's that kind to stop you right in your tracks  
Knock you out just like that, somethin' you just can't explain  
That kind to blow your mind every time  
Thought that you would never find  
She's that kind, she's that kind of beautiful  
She's like that feelin' you get on a Sunday  
Forgiveness when you need it the most  
Like that little girl singin' every single word  
With a big smile in the front row  
Wanna stand so close you can feel it  
Yeah, you're wishin' that the whole world could see it  
She's that kind to stop you right in your tracks  
Knock you out just like that, somethin' you just can't explain  
That kind to blow your mind every time  
Thought that you would never find  
She's that kind, that kind of beautiful  
Once you've held on  
You won't remember where you've been  
Just like a song, you wanna sing again and again  
She's that kind  
She's that kind to stop you right in your tracks  
Knock you out just like that, somethin' you just can't explain  
That kind to blow your mind every time  
Thought that you would never find  
She's that kind  
She's that kind to stop you right in your tracks  
Knock you out just like that, somethin' you just can't explain  
That kind to blow your mind every time  
Thought that you would never find  
She's that kind, that kind of beautiful
