Rearrange

God Lives Underwater

All along we knew the answers all along
Why did it take you so long? I hear you say
It all depends on how your point of view can change
'Round and 'round, rearrangeI don't count the daysAll along I didn't listen physically
I've come to find what's not mine, I thought I was given
It all depends on how your point of view can change
'Round and 'round, rearrangeAll the while I feel like I could go either way
Behind your back, I just may
I don't count the daysAll along I could do anything
Anything without you, anyway
It all depends on how your point of view can change
'Round and 'round, rearrangeAll the while I feel like I could go either way
Behind your back, I just may
I don't count the days
