

You Dance Just Like Me

[Lisa Miskovsky](#)

Once was lost, now its over
I greet the morning, I believe it was the light
Once was lost, now its over, without a warning
I believe it was the nightCause I feel so lost when youre mine
You can no longer give you that sign
Cause you dance just like me, yeah
Just like meI cant see cause Im blinded with the ocean
That you once gave to me
Why cant I be alone, I get a notion
That it wasnt meant to beBut its easy to see when youre blind
You can hear me when I make that sound
Cause you dance just like me, yeah
Just like meYou can see with no eyes
You can feel the wind blow
Through the streets with no lightsWhen you feel that youre over and out
When you need someone there through the night
I can guide you through fire and ice
