

# Abandon the Darkness

## Awaken Demons

This is the last calling, to save your self.  
the last breath is on your opinion, abandon the darkness!  
Come to life, fight for a better life, DRUGS FREE!  
Be who your fucking be, and rise above this this fucking mess  
The straight edge lives in me, i have no faith in  
you  
I live my life drugs free, i can not fucking trust you!  
i live my life drugs free I can not fucking trust you  
Where is your control now,  
i got mine  
Somebody light up the lights of fure ( i'm not sure what they say here)  
They believes (...and here) I got the power to change my future  
..... (and here :p ...)  
The gates of a new I are open  
Waiting to wait You think you now me, you have no fucking clue!  
I AM YOUR WORST FUCKING  
NIGHTMARE! x4
