Tell Me What

Geoff Useless

Tell me what, tell me what, tell me what I gotta do
To make you notice, to make you look this way
What do I have to say?
Tell me what, tell me what, tell me what I have to sayTo keep you with me, to make you want to stay
To have you every day
Tell me what, tell me what, tell me what I gotta doAre you happy, I can never tell
You keep it to yourself
Tell me what, tell me what, tell me what it is you feelDo you get frightened?
Am I comin' on just a little strong
And you're so quiet, I'll never know or not if I'm right or wrongTell me what, tell me what, tell me what I gotta do
Is there somethin' I ought to be told
Do you want to go?
Tell me what, tell me what, tell me what it is you knowSo it's over, then we're really through?
What I heard is true
Tell me what, tell me what, tell me what your gonna doTo keep you with me, to make you want to stay
To have you every day
Tell me what, tell me what I gotta doTell me, won't you tell me
Tell me what, tell me what, tell me what I gotta do
Ohh ohh [Incomprehensible] won't you tell now
Tell me what, tell me what, tell me what I gotta do
