Flow Like Wine

Gabe Dixon

While the furrows on your brows
I see beauty between the lines
Ohhh oh love don't you worry about our loveSlip your feet into the water lay your head, right next to mine
Ohhh oh love don't mean nothing without loveOhh let love let love let love flow like wine, wine
Let love let love let love flow like wineLike a river, so glorious
Before the part is twist and turns
Only love can drown our fears, only love
Say our prayers in this communion
Still holding to a leap of faithOhh let love let love let love flow like wine, wine
Let love let love let love flow like wine
Flow like wine
Flow like wine
Flow like wine
The sound of seagulls way up ahead
Just like a promise that I once made
Ohhh oh love don't mean nothing without your love
