

Rome

Turin Brakes

We felt the earth shake
Under California
All the way down to Tokyo
There is a fault line
Running through the old heart
We watch the stars but toe the line
And on that old hill
They're packing down a circus
Every place we used to play
The undercover
Secret operators
Remember what you used to say
As a child I could feel the force
Inside everything
Drop your head, keep the course
Coz nobody knows a thing
Woke up in old Rome
By the colloseum
Body bound drifting away
If you're an old soul
Like an ancient ruin
Or a prisoner to a private play
Let's watch the chaos
Coming in like wave sets
We'll always be anomalies
And all that energy
Underneath an earthquake
Gets used again eternally
As a child I could feel the force
Inside everything
Drop your head, keep the course
Coz nobody knows a thing
I always believed in nothing
I always believed in nothing
Nobody knows
Nobody knows
