

The Other Side of Midnight

Uriah Heep

Late at night Ill be knocking
On your door
Late tonight Ill be calling
You can be sure Ill be waiting
Standin in the shadows once again
Sneakin, creepin
Howling like a tom cat once again Ooh, therell be nowhere you can hide
When I take you
On the other side of midnight You know I dont love you
But I love what you can do
Some more of that hot persuasion
This time it's just like you Ooh, therell be nowhere you can hide
When I take you
On the other side of midnight
Ill be knockin
The other side of midnight Ill be callin
The other side of midnight
Knock, knockin
The other side of midnight Im gonna take you
Im gonna make you
At midnight, at midnight Ooh, late at night Ill be knock, knock, knockin on your door
I said late tonight Ill be callin, you can be sure
Im gonna take you, ooh, its gonna hurt so good
Im gonna make you do what a bad girl should Ooh, therell be nowhere to hide
When I take you
On the other side of midnight
The other side of midnight Ill be knockin
The other side of midnight
Ill be callin
The other side of midnight
On the other side Ill be waitin, Ill be callin
The other side of midnight
Ill be knock, knock, knockin at midnight
