Bad Decisions

Don Schlitz

Turn the lights on
[Chorus]
She said I took way too long coming home last night
Said I be messin' with all these women
I been through it so wrong, wish I could make it right
Me and my bad decisions.
Guess it's my fault for not believing she could love, love me..
Hard to believe I treated someone beautiful so ugly..
Guess I broke to pieces her heart
Got used to seeing her crying, cause I went and pushed it too far
She got sick and tired of me lying..yeah
[Chorus]
She said I took way too long coming home last night
Said I be messin' with all these women
I been through it so wrong, wish I could make it right
Me and my bad decisions.
She's gone, gone, gone..
(I should have) Should have listened (Should have listened), but I didn't..(Me and my bad decisions)
She said she move on, on, on
And now I'm trippin'.. should have listened..
Now I got time to think of all I could have done..different
Search the whole world until I realized the one I needed was right there..I was trippin'
(Wanna) but I know you know I love you..
(Don't I) never took the time to tell you..
(So I) know that shit don't even matter right now cause I'm the reason that your heart shatter right now..
(And I) I know how to fuck a good thing up..
(And I) I ain't about to lose your love but that sh*t don't even matter right now
cause I'm the reason that yo heart shatter right now.
Guess I broke to pieces her heart,
Got used to seeing her crying,
Cause I went and pushed it too far,
She got sick and tired of me lying..
[Chorus]
She said I took way too long coming home last night
Said I be messin' with all these women
I been through it wrong, wish I could make it right
Me and my bad decisions.
Oooh god knows I've done some wild and crazy things in my past
And I can't take nothing back (Can't take nothing back)

Can't take nothin' back..
Forced to live with that
Always making all these bad decisions..
guess I broke to pieces her heart (i broke her heart)
got used to seeing her crying (used to seein her cry)
cause I went and pushed it too far (pushed it too far)
she got sick and tired of me lying (ooh she said..)
[Chorus]
She said I took way too long coming home last night
Said I be messin' with all these women
I been through it so wrong, wish I could make it right
Me and my bad decisions.
She's gone, gone, gone..
(I should have) Should have listened (Should have listened), but I didn't..(Me and my bad decisions)
She said she move on, on, on
And now I'm trippin'.. should have listened..
Me and my bad decisions..
Fucked up..Fucked up bad..(yes I did)
Me and my bad decisions
Aint no way I could take that back..
