

# Real Time (Instrumental)

## Steve Ryan

I have new way of thinking  
My understanding is expanding over time  
Inside a new light is shining  
The old frustration is escaping from my mind  
All of my dark side is leaving  
Procrastinating is vacating from my style  
In place a new sun is rising  
And Condemnation's evaporating to the sky (to the sky)I just want to stay in real time  
Going to move forward and won't hit that rewind  
I don't want get stuck, looking behind  
Going to live my life and I won't hit that rewind  
I just want to stay in real time  
Going to move forward and won't hit that rewind  
I don't want get stuck, looking behind  
Going to live my life and I won't hit that rewindI don't want to stop  
I don't want to pause  
I just want to (live each day and take a minute, make the moment count)  
In real timeI have a new way of breathing  
The old pollution is revolving from my eye  
Now lies a new kind of seeing  
My appreciation's elevating to a high  
I feel a new way of feeling  
The past emotion is diverting to the side  
I'm grateful for mental healing  
Now my confusion is eluding from my mind, from my mindI just want to stay in real time  
Going to move forward and won't hit that rewind  
I don't want get stuck, looking behind  
Going to live my life and I won't hit that rewind  
I just want to stay in real time  
Going to move forward and won't hit that rewind  
I don't want get stuck, looking behind  
Going to live my life and I won't hit that rewindI don't want to stop  
I don't want to pause  
I just want to (live each day and take a minute, make the moment count)  
In real timeI just want to stay in real time  
Going to move forward and won't hit that rewind  
I don't want get stuck, looking behind  
Going to live my life and I won't hit that rewind  
I just want to stay in real time

Going to move forward and won't hit that rewind  
I don't want get stuck, looking behind  
Going to live my life and I won't hit that rewindI don't want to stop  
I don't want to pause  
I just want to (live each day and take a minute, make the moment count)  
In real time
