2 Find U

Buffy

Everynight I pray for someone like you
To come in my life baby, it finally came true
You are the one who's captured my heart
Together, never ever be apart
This feels like a fantasy
Like a story book i've read
Everythings so picture perfect
Nothings left unsaidChorus
Baby, it took this long for me to find you
I'm not about to lose you
Baby, you can be sure I will love you forever
Baby it's better late than never
It took this long for me to find you
I'm not about to lose you boyEverytime I look into your eyes
I can see a vision of you, a dream thats belongs to me
If I had to do it all again
Just tell me when i'll wait for you baby
This feels like a fantasy
Like a story book i've read
Everythings so picture perfect
Nothings left to unsaidChorusYour all I want
Boy your all I need
It took this long to find you
And i'll never let you goChorus
