

# Belladonna & Aconite

## Inkubus Sukkubus

Belladonna and aconite  
Give to me the gift of flight  
Take me up, airborne in the night  
In a dream, across the sky  
A hundred - million miles high  
Take me ever onwards in the nightDark sisters join my night flight  
See how far you can climb  
Holt's with us on this bright night  
Ride with him 'cross the skyAs a screaming horde  
We cut the scape  
The Devil's Apple exacerbates  
To the sabbat on demon steed I ride  
Across the astral plane we race  
The universe my fingers trace  
And I am lost forever in my mindDark sisters join my night flight  
See how far you can climb  
Holt's with us on this bright night  
Ride with him 'cross the sky
