Let It Rain

East 17

As we walk through the
Corridor of creation
We see lands divide
Nation against nation
Like comets they collide
And we pray
We pray for the unseen
To be seen by the eyes of man
When heaven and earth are hand in hand
Thy will be done
Damn
get set for damage
Prepare the soul
To control and manage
Cut the groove
Make it rough like a chainsaw
Inject a beat eat meat like carnivore
Trumpets sound
And wrath pours down
Angels dance to the new groove in town
Clouds partSky opens wide
No place to run
no place to hide
Love rain down on me
Don't want to see it
Just wanna feel it
Love knows no boundary
Gotta believe it
And you'll receive itLove - let it rain (8 x)
LoveTribes 144 on the mount
Like an exodus to the final count
Music is blasting
silence everlasting
The call of the cosmos got the
Planets dancing
2 send a new vibe
New ray new day
A spiritual experience
Is gonna come your way

A vision a vibe with a touch too tender
Your love to the lord
Now it's time to surrender
Love rain down on me
Don't wanna see it
just wanna feel it
Love knows no boundary
Gotta believe it
And you'll receive itLet it rain (8 x)
Love - let it rain
