See Who I Am

Within Temptation

Is it true what they say? Are we too blind to find the way?
Fear of the unknown cloud our hearts today
Come into my world, see through my eyes
Try to understand, don't want to lose what we haveWe've been dreaming but who can deny
It's the best way of living between the truth and the liesSee who I am, break through the surface
Reach for my hand, let's show them that we can
Free our minds and find a way, the world is in our hands
This is not the endFear is withering the soul at the point of no return
We must be the change we wish to see
I'll come into your world, see through your eyes
I'll try to understand before we lose what we haveWe just can't stop believing 'cause we have to try
We can rise above their truth and their liesSee who I am, break through the surface
Reach for my hand, let's show them that we can
Free our minds and find a way, the world is in our handsSee who I am, break through the surface
Reach for my hand, let's show them that we can
Free our minds and find a way, the world is in our hands
This is not the endHear the silence preaching my blame
Will our strength remain if their power reigns?See who I am, break through the surface
Reach for my hand, let's show them that we can
Free our minds and find a way, the world is in our handsSee who I am, break through the surface
Reach for my hand, let's show them that we can
Free our minds and find a way, the world is in our hands
This is not the end
