So Many Ways

Morphine

Is this the way that you like it?
Is this what you had in mind when you called above
To the angels for the six hundred and sixty sixth time?
Hey, what about this? What about this, shake itWhat do you want and how do you like it?
How many times is this the right socket?
What do I wear and what do I say?
Please tell me again how we get there
Please tell me again how we get thereSo many ways to get a lift
So many ways to get your head unzippedToo late for anymore questions
The preamble is done, the overture's ended
The drawbridge is up, cat's out of the bag
And looking for a sofa to scratch
Looking for a sofa to scratchThis the way that you like it
This what you had in mind when you called above
To the angels for the six hundred and sixty sixth time
Hey, what about this? What about this?
What about this? Shake itSo many ways to get a lift
So many ways to get your head unzipped
So many ways to get a lift
So many ways to get your head unzipped
So many ways to get a lift
So many ways to get your head unzipped
