Alienation

Belial's Bride

Principalities of the celestial realm, with alien technologies.
Enslaving carnal minds that remain unaware of their telepathic mediums.
Penetrating dimensions, subliminal suggestion, soul desensitization, the perpetual snare.
Diabolic endeavor unifying the word: The godless allegiance that rapes morality!

Idolatrous mindsets are fashioned as consciences are seared by demonic enslavement.
As one people speaking the sin filled language that fucks holiness.

Disguised as salvation, they speak like dragons; uniting the kingdoms:
Come worship the beast!
Blasphemous mouth creating rebellion. A new order.

Lawlessness spreads throughout every nation as humanity receives Antichrist.
The age that rejects their own creator: Alienation of the living God.

Governments infiltrated with perverted religions as the world becomes out of balance.
The supercilious socialistic web of consciousness accentuating false gratification.
Striving omnipresence, no recluse or serenity. Eyes of the beast, sanctuary's termination.
The tree of knowledge bewitches with duplicitous reasoning: The fruit of deadly pleasure....

Demonic intervention arrays as human invention. Devil in the machine, manipulate humanity.
Lucifer's celestians desired objective is global damnation for a complacent generation.

Planetary seduction by way of material enlightenment, rendering world systems corrupted.
Infectious deception, fallen humanity unified through dimensional infidelity.

Idolatrous mindsets are fashioned as consciences are seared by demonic enslavement.
As one people speaking the sin filled language the fucks holiness.

Disguised as salvation, they speak like dragons; uniting the kingdoms:
Come worship the beast!
Blasphemous mouth creating rebellion. A new order!

Lawlessness spreads throughout every nation as humanity receives Antichrist.
The age that rejects their own creator: Alienation of the living God.

The dawn and fall of an alien nation.... Sentients hellbent on idolatry.
Humanity rapes the call to holiness: Connected to celestial technology.
