

Braindead

Six Feet Under

Crack my skull inside my head once alive now braindead
Stick a needle in my skin, I can't feel a fucking thing
I can't control the way I have lived through
The horror the terror the murders Tap the vein and let it flow, slow
Inside my heart, cold and hollow
I feel no remorse
My heart beats but I think I'm deceased Braindead, time to pull the plug
Braindead, I feel no love
Braindead, you've stopped breathin'
Braindead, I'm hunting humans this season
