

5th Dimension (ft. Ricco Barrino)

B.o.B

B.O.B

What's up, what's, down.

Ladies and gentleman we are entering into the fifth dimension

And I mention we gone. Right on right on

B.O.B

B.O.B

Give it to em shawty I'm eons and eons beyond these peon's

Another human like me there will never be one

The planet that I'm from, I can't even speak on

The stars is what I sleep on

The moon I put my feet on

The way my aura glow, you swear I'm made of neon

Cooler than the freon on, its in your dodge neon

They say the future is now, to me it hasn't begun

Stay tuned to me and their will never be a re-run

So come and leap on my body and as we come

You'll probably feel moist like the trees on the tropics

We gone we gone, we out it, no we don't need rockets

We hope up on the mother ship an we gone, we sliding

We slipping through dimensions, we hyper space gliding

Blasting through the atmosphere

Frightening in the lightening

I know I'm out my mind girl, but you know you like it

So hope up on my cosmic highway so we can ride it Shorty are you going my way

Come and ride on my, my cosmic highway

(Ooh) let's go (Ooh) let's go

Shorty I cant take earth no more

Another galaxy we must go Well, fresh up out the sky I'm like a meteorite

So when the studio, no I don't need to write

Man I just came up in the game cause y'all just needed more light

So, so by the time I'm done their ain't gonna be no more mics

And people ask me B.o.B what kind of language is that

Cause I may blast into the future, I may never come back

And I'm a leave with a thirty thousand a night yearly

Headed to a distant planet called B.o.B

And then I'm gone, man they not ignoring me

Taking off from half court Air Jordan'

All systems go in ten seconds I'm orbiting

Hanging in the cosmos like a space ornament

Heat 'em up like a solar flare oh yes I bring the pain
Similar to asteroid that's headed to your brain
My lane is something that they really cannot explain
They try to hold me down but man it's me that they cant contain
Shorty are you going my way
Come and ride on my, my cosmic highway
(Ooh) Let's go (ooh) let's go
Shorty I cant take earth no more
Another galaxy we must go
Come and go with me, I'll take you to my galaxy
I'm talking Venus, Jupiter, Mars, Mars, Mars
And I'm saying girl, I'll ride all night
And I need you for this ship to take flight
Let's go, let's go
Come on baby let me take it off
Another second we gone blast it off
Look shorty are you going my way
Come and ride on my, my cosmic highway
(Ooh) Let's go (ooh) let's go
Shorty I cant take earth no more
Another galaxy we must go
