Unholy Deterrent

Dynazty

Music: Magnusson/Molin. Lyrics: Molin

Light comes out of darkness, brighter than the sun
Electrifies the atmosphere like a billion Gatling guns
The swirl of hellish fire, scorch the barren ground
Amidst the blazing wave they scream out loud without a sound

We are what we create

Unleash the unholy deterrent
Abandon the laws of humanity
Strike down and rule them in terror
Complete an outrageous atrocity

Pandoraâ€™s box is opened
Awakened has a beast
We sacrificed the innocent and participated in the feast
The world would be our witness
Struck with awe by atomic fear
Will the end justify our means our future is still not clear

We are what we destroy

Unleash the unholy deterrent
Abandon the laws of humanity
Strike down and rule them in terror
Complete an outrageous atrocity
Our sons are now born to inherit
A violent and darkened reality
We unleash the unholy deterrent
And complete a inhuman calamity

Life is terminated, instantly erased
This catastrophic scenery will leave a mark on the human race
Our sins wonâ€™t be forgotten, the memory remains
A final act of impurity and our world will never be the same

Unleash the unholy deterrent
Abandon the laws of humanity
Strike down and rule them in terror

Complete an outrageous atrocity
Our sons are now born to inherit
A violent and darkened reality
We unleash the unholy deterrent
And complete a inhuman calamity
