

# Living the dream

## Jennylyn Mercado

Where have you been all of my life?  
Where have you come from?  
Is this your first time too?  
It's like I've known you in some other lifetime  
We're part of the great plan  
Like two stars that shine I stood here watching  
While it only happened to friends  
Now I don't have to pretend I can't believe we're living the dream  
We're diggin' that scene  
We finally made it through the fire  
Something 'bout you blows me away  
Like night over day  
Kissing the loneliness goodbye True love, true love  
Baby could this be  
True love, true love  
Happening to me I've been waiting all of my life  
Anticipating with every dream every night  
Destiny's a moment we all share in time  
Love is the message  
And I know I've got mine I stood here watching  
While it only happened to friends  
Now I don't have to pretend I can't believe we're living the dream  
We're diggin' that scene  
We finally made it through the fire  
Something 'bout you blows me away  
Like night over day  
Kissing the loneliness goodbye True love, true love  
Baby could this be  
True love, true love  
Happening to me  
True love, true love  
Baby could this be  
True love, true love  
Happening to me I can't believe we're living the dream  
We're diggin' that scene  
We finally made it through the fire  
Something 'bout you blows me away  
Like night over day  
Kissing the loneliness goodbye True love, true love

Baby could this be  
True love, true love  
Happening to me  
True love, true love  
Baby could this be  
True love, true love  
Happening to me
