

Legendary (Chris Brown, Keyshia Cole, Ne-Yo)

DJ Khaled

You know I seen some things
It's important to stay strong
What's up DJ Khaled, it's your girl KC
If I make it through
We'll carry on the weight of this world
If I make it through
We'll make sure all the people know how it feels
To be legendary
Baby don't cry no more
Cause I'm here to show you the way
I know you got some fight in you, oh
So don't make losing so easy, oh
Everybody's gonna fight
And everybody's gonna fall
But the ones that get up
Are always the strongest
Oh I can't imagine if I
Never went through nothing
I wouldn't be a fighter
And I wouldn't last the longest, no
If I make it through
We'll carry on the weight of this world
If I make it through
We'll make sure all the people know how it feels
To be legendary
Legends are born and created
Nothing's free so I take it
It takes the determination (goin' in)
Not nations
Everybody's gonna fight
And everybody's gonna fall
But the ones that get up
Are always the strongest
Oh I can't imagine if I
Never went through nothing
I wouldn't be a fighter
And I wouldn't last the longest, no
If I make it through
We'll carry on the weight of this world
If I make it through
We'll make sure all the people know how it feels
To be legendary
(I'm on right now)
I promise I'm a do it better than anybody's ever seen
(In this fight)
That I will be everything that everybody told me I would never be
(I won't go down)

Got my feet on the ground so when I'm on my back, my head's to the sky

(I won't stop now)

No, not ever you can see in my eyes

I'ma be legendary If I make it through

We'll carry on the weight of this world

If I make it through

We'll make sure all the people know how it feels

To be legendary I remember when they told me no

I looked them right in their eyes and I told them yes

Don't let nobody stop your dreams

Keep winning

Rise to the top

Keep your head up

Young world

The world is yours

We the best
